Safety Data Sheet

Cas12 (LbCpf1, GST) Kit

Cat#: orb1945099

Revision Date: 2023-10-16

Product Description

Cas12 (LbCpf1) enzyme reaction kit consisting of GST tagged enzyme, buffer, and optional reporter and/or guide RNA.

Components

Component Name	20 µg	100 µg
Cas12 (LbCpf1), Active	20 µg	100 µg
Cas12 Reaction Buffer, 10X	1ml	2 x 1ml
Cas12 ssDNA Reporter (optional)	10 nmol	10 nmol
Cas12 Guide RNA (optional, custom)	1 vial	1 vial

Formulations

Enzyme	50mM Tris-HCl, pH 7.5, 150mM NaCl, 10mM glutathione, 0.1mM EDTA, 1mM DTT, 10% glycerol
Buffer	100mM Tris-HCl, pH 8.0, 500mM NaCl, 100m MgCl2, 1mg/mL Prionex® (0.1% w/v)
Reporter	Lyophilized powder
Guide RNA	Nuclease free water

Storage and Stability

Store kit at -70°C. To avoid repeated handling and multiple freeze/thaw cycles aliquot components into smaller quantities. Protect reporter component from light.

Scientific Background

CRISPR (clustered regularly interspaced short palindromic repeats) and CRISPR-associated (Cas) proteins constitute the adaptive immune system in bacteria (1-2). This system has been leveraged to create an exemplary gene detection and genome editing tool with applications in both basic research and therapeutics development (3). Cas12 has both cis and trans nuclease cleavage activity. Its trans cleavage activity can be exploited for various gene detection applications and its cis nuclease cleavage activity can be applied to gene editing applications like gene deletion (4). Cas12 is recognized as an ideal candidate for future management of diseases such as cancer (5).

Reaction Protocol

Other Materials Required

- Filter pipette tips
- Nuclease free water
- Nuclease free microcentrifuge tubes
- Half-area solid black 96-well plate
- Microplate sealing tape
- Fluorescent microplate reader
- dsDNA substrate

Step 1: Thaw the active enzyme on ice. Prepare 1X Reaction Buffer with nuclease free water. Reconstitute reporter in nuclease free water. Equilibrate the buffer, reporter, guide RNA, and dsDNA substrate to ambient temperature.

Step 2: Prepare the following working solutions with 1X Reaction Buffer:

- 4X final concentration of Active Cas12 enzyme
- 4X final concentration of guide RNA
- 2X final concentration of substrate/reporter mix

Step 3: In a half-area solid black 96-well plate, add the following components and pre-incubate at room temperature for 15 minutes;

Component 1. 10 µL of 4X Active Cas12

Component 2. 10 µL of 4X guide RNA

Note: A blank control can be set up as outlined in step 3 by replacing the enzyme working solution with an equal volume of the reaction buffer.

Step 4: To each assay well, add 20 µL of the 2X substrate/reporter mix. Shake the plate for 1 minute on a tabletop orbital shaker. Seal the assay wells with microplate sealing tape and incubate at 37°C for 10-30 minutes.

Step 5: Equilibrate the plate to ambient temperature and then remove the microplate sealing tape. Read fluorescence on a microplate reader.

Article 1 - Product Identification

This product is sold only for research use by qualified laboratory personnel, and is not to be used as a drug, medical device, food additive, cosmetic, nor household chemical. It is not to be used in diagnostic, therapeutic, consumer, agricultural, nor pesticidal applications.

Product Name: Cas12 (LbCpf1, GST) Kit

Catalog #: orb1945099

Article 2 - Hazard Identification

- **Emergency Overview:** The product contains no substances which, at their given concentrations, are considered to be hazardous to health.
- **WHMIS Classification:** Not WHMIS controlled.
- **GHS classification:** Not classified.
- **Hazard Pictograms:** None.
- **Signal words:** None.
- **Hazard statements:** None.
- **Precautionary statements:** None.
- **Other hazards:** None known.

Article 3 – Composition/Information on Ingredients

Description: This product consists of the components listed below

Component: Cas12 (LbCpf1), Active

Chemical Characterization: Mixture.

Common name	Chemical name	CAS-No.	Concentration
Glycerol	Glycerol	56-81-5	10%
NaCl	Sodium chloride	7647-14-5	0.8766%
Tris-HCl; Tris (hydroxymethyl) aminomethane hydrochloride	2 – Amino – 2 - (hydroxymethyl) propane - 1, 3 - diol hydrochloride	1185-53-1	0.788%
Glutathione	Glutathione	70-18-8	0.307%
Protein	N/A	N/A	0.010%
DTT; Dithiothreitol	(R*,R*)-1,4-Dimercaptobutane-2,3-diol	3483-12-3	0.0154%
EDTA	Ethylenediaminetetraacetic acid	6381-92-6	0.0037%

Component: Cas12 Reaction Buffer, 10X

Chemical Characterization: Mixture.

Common name	Chemical name	CAS-No.	Concentration
NaCl	Sodium chloride	7647-14-5	2.9%
MgCl2	Magnesium Chloride Hexahydrate	7791-18-6	2%
Tris-HCL	2-Amino-2-(hydroxymethyl)propane-1,3-diol hydrochloride	1185-53-1	1.2%
Prionex®	Prionex® Reagent	N/A	0.1%

Component: Cas12 ssDNA Reporter (optional) Not a hazardous substance or mixture

Component: Guide RNA (optional, custom) Not a hazardous substance or mixture

Article 4 – First-aid Measures

- General information: Consult a physician by providing the SDS.
- After inhalation: Breath in fresh air. If casualty cannot breathe, give artificial respiration and consult a physician.
- After skin contact: Immediately wash with soap and plenty of water and rinse thoroughly. Consult a physician.
- After eye contact: Rinse opened eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do so. Consult a physician.
- After swallowing: Not expected to present a significant ingestion hazard under anticipated conditions of normal use. If you feel unwell, seek medical advice.

Article 5 - Fire-fighting Measures

- **Suitable extinguishing media:** Use water spray, extinguishing powder, carbon dioxide, or other appropriate measure that is suitable to the environment.
- **Specific hazards arising from the substance or mixture:** None known.
- **Special protective equipment and precautions for fire-fighters:** Self-contained breathing apparatus if necessary.

Article 6 – Accidental Release Measures

- **Personal precautions, protective equipment and emergency procedures:** Apply standard laboratory practices and personal protective equipment. Avoid breathing vapors, mist, or gas. Ensure adequate ventilation.
- **Environmental precautions:** Do not allow to enter drains.
- **Methods and materials for containment and cleaning up:** Absorb on sand or vermiculite and place in closed containers for disposal.

Article 7 - Handling and Storage

- **Precautions for safe handling:** Wear chemical safety goggles and compatible chemical-resistant gloves. Avoid inhalation, contact with eyes, skin or clothing.

- **Conditions for safe storage:** Store according to product label instructions. Keep container upright and tightly closed.

Article 8 - Exposure Controls/Personal Protection

• Components with limit monitoring values at workplace:

NA

• Appropriate engineering controls:

Apply adequate ventilation including mechanical exhaust or laboratory fume hood. Follow standard laboratory practices.

• Individual protection measures:

Respiratory protection:

Use appropriate respirator if there is inadequate ventilation by following the government standards.

Hand protection:

Wear gloves and use proper glove removal technique to avoid skin contact. Discard gloves after use by following the applicable laboratory regulations. Wash and dry hands.

Eye/face protection:

Safety goggles with side-shields approved under appropriate government standards.

Skin/body protection:

Use appropriate clothing, footwear and any additional protection measures to protect from splashing or contamination.

Article 9 – Physical and Chemical Properties

Component: Cas12 (LbCpf1), Active

Appearance: Colorless fluid.	**Danger of explosion:** Product does not present an explosion hazard.
Odour/Odour Threshold: Not determined.	**Explosion limits:** Not available.
pH: Not available.	**Decomposition temperature:** Not available.
Melting point/freezing point: Not determined.	**Vapor pressure at 20 °C:** Not available.
Boiling point/Boiling range: Not determined.	**Density:** Not determined.
Flash point: Not determined.	**Relative density:** Not determined.
Flammability (solid, gaseous): Not determined.	**Vapor density:** Not determined.
Ignition temperature: Not determined.	**Evaporation rate:** Not determined.
Auto-igniting: Product is not self-igniting.	**Solubility in / Miscibility with Water:** Fully miscible.

Component: Cas12 Reaction Buffer, 10X

Appearance: Colorless fluid.	**Danger of explosion:** Not determined.
Odour/Odour Threshold: Not determined.	**Explosion limits:** Not available.
pH: Not available.	**Decomposition temperature:** Not available.

Melting point/freezing point: Not determined.	**Vapor pressure at 20 °C:** Not available.
Boiling point/Boiling range: Not determined.	**Density:** Not determined.
Flash point: Not determined.	**Relative density:** Not determined.
Flammability (solid, gaseous): Not determined.	**Vapor density:** Not determined.
Ignition temperature: Not determined.	**Evaporation rate:** Not determined.
Auto-igniting: Not determined.	**Solubility in / Miscibility with Water:** Fully miscible.

Component: Cas12 ssDNA Reporter (optional)

Appearance: Translucent or opaque flakes, film or powder-like substance	**Danger of explosion:** Not determined.
Odour/Odour Threshold: Not determined.	**Explosion limits:** Not available.
pH: Not available.	**Decomposition temperature:** Not available.
Melting point/freezing point: Not determined.	**Vapor pressure at 20 °C:** Not available.
Boiling point/Boiling range: Not determined.	**Density:** Not determined.
Flash point: Not determined.	**Relative density:** Not determined.
Flammability (solid, gaseous): Not determined.	**Vapor density:** Not determined.
Ignition temperature: Not determined.	**Evaporation rate:** Not determined.
Auto-igniting: Not determined.	**Solubility in / Miscibility with Water:** Fully soluble.

Article 10 - Stability and Reactivity

- **Reactivity:** Stable under recommended transport and storage conditions.
- **Chemical stability:** Stable under recommended transport and storage conditions.
- **Possible hazardous reactions:** No dangerous reactions known.
- **Conditions to avoid:** Heat and moisture.
- **Incompatible materials:** Not determined.
- **Hazardous decomposition products:** Not determined.

Article 11 - Toxicological Information

- **Acute toxicity:** Not available.
- **LD/LC50:** Not available.
- **Skin corrosion/irritation:** Not available.
- **Serious eye damage/eye irritation:** Not available.
- **Respiratory or skin sensitization:** Not available.
- **Germ cell mutagenicity:** Not available.
- **Carcinogenicity:** No components are listed in IARC, or NTP, or OSHA, or ACGIH.
- **Reproductive toxicity:** Not available.
- **Teratogenicity:** Not available.
- **Specific target organ toxicity - single exposure/ - repeated exposure (GHS):** Not available.
- **Aspiration hazard:** Not available.
- **Potential health effects:**

Inhalation: No data available

Ingestion: No data available

Skin: No data available

Eyes: No data available

- **Signs and Symptoms of Exposure:** No data available
- **Synergistic effects:** Not available.

Article 12 - Ecological Information

- **Eco-toxicity:** No data available.
- **Biodegradability:** Not applicable.
- **Bio-accumulative potential:** Not applicable.
- **Mobility in soil:** Not applicable.
- **PBT and vPvB assessment:** Not applicable.
- **Other adverse effects:** Not applicable.

Article 13 - Disposal Considerations

- **Disposal methods:** In accordance to applicable national, regional, or local laws and regulations. For additional handling information and protection of employees please refer to Article 7 and 8.
- **Contaminated packaging:** Disposal should be made in accordance to official regulations. Use water or cleansing agents to clean the area.

Article 14 - Transport Information

- **DOT:** Not dangerous goods.
- **IMDG:** Not dangerous goods.
- **IATA:** Not dangerous goods.

Article 15 – Regulatory Information

- **WHMIS Classification:** Non-hazardous.
- **GHS label elements:** Not applicable.
- **Signal word:** Not applicable.
- **Hazard statements:** Not applicable.

Article 16 - Other Information

The above information is believed to be correct but does not purport to be all-inclusive and shall be used only as a guide. Biorbyt shall not be held liable for any damage resulting from handling or from contact with the above product. See the Technical Specification, Packing Slip, Invoice, and Product Catalog for additional terms and conditions of sale.
